

Welcome User.....!! You now own one of the best locks with State of the Art features.

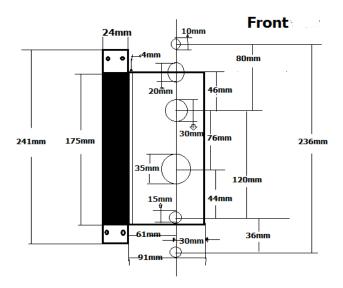

Step1: Please ensure that lock matches with your door state. Default is set to Right Inside Opening unless specified.

www.smart-tala.com : www.smartlock.co.in

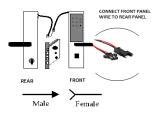

Step 2: Follow mortise Cut-Out to drill the slot in the Door and assemble the lock.

<u>www.smart-tala.com</u>: <u>www.smartlock.co.in</u>

Step 3: After Installing connect the cables as shown.

Step 4: Connect the Batteries (Not Included). The lock will beep and touch panel illuminated. Congratulations!!

There you GO...

Step 5: Download the operating manual from website and follow the instructions to add the lock to the application and how to use it.
